PRINT / TECH LECTURE / DEMO

WITH EVELYN CONTRERAS AND HIBA ALI

WHAT IS A PRINT?

Traditionally, an indentation or mark left on a surface or soft substance by pressure, especially that of a foot or hand. Think newsprint, printing presses, etc.

More broadly, it's a transfer. Think mold-making, replication, 3-D printing, movie screenings, amazon.com, virtual reality, and logical craft in general ("tech" = craft; "logos" = logic)

EXAMPLES

FABRICATION

Ruben Ortiz Torres
"Alien Toy"
<http://www.rubenortiztorres.com/>

Markus Kinson
"Roermond-Ecke-Schönhauser"
<http://www.markuskison.de/>
